

## Docsmartz Power Server

Docsmartz Power Server is powerful, flexible and user-friendly server-based software that supports PDF Creation and Conversion.

Docsmartz Power Server equips multiple users with complete PDF creation and extraction capabilities. It provides centralized deployment and licensing. The application is first installed on a server, and from a simple user interface there, the desktop software for conversion and creation are deployed easily to multiple user systems.

### Highlights & Benefits:

- Equipped with the power of Docsmartz Pro and Docsmartz PDF Creator, you can create PDFs from any application with a print interface; and convert PDF into many applications like Word, Excel, Images and Postscript.
- Docsmartz Power Server turns out to be very economical when there is a requirement of multiple licenses.
- There are no limits to the number of conversions that could be done by the users.
- Users can work concurrently on their own systems for PDF conversion and creation needs.
- With a complete administrative control over the deployment and licensing process, it is easy to use and one can manage licenses from the server.
- No dependency on server during PDF Creation and Conversion.
- Server security is not compromised because there is no need for sharing folders.
- Choose number of required licenses from 4 server-packs having 25 to unlimited licenses.

### Features

#### Multiple Licensing

Docsmartz Power Server provides multiple licensing options. The Server packs are available in different license quantities so as to suit to varied needs of organizations, making it suitable to all organizations needing PDF Conversion and Creation ability.

#### Small and Medium Businesses can opt for the following license packs :

25 license pack	\$600
50 license pack	\$1000

#### Large Businesses and corporations can select from the following License packs:

100 license pack	\$1500
Infinite license pack	\$3000

#### Ability to install desktop applications

The Docsmartz Power Server equips you with the installation of desktop applications on client machines. These desktop applications are Docsmartz Pro and Docsmartz PDF Creator.

#### The ability of PDF Conversion process within Docsmartz Pro encompasses the following:

- Converts PDF files to Word, Excel, Image or Postscript.
- Converts Word to PDF.
- Batch Conversion for multiple files is feasible.
- Extracts Images from a PDF file.
- Converts only specific pages of PDF to Word.

#### The capability of PDF creation with Docsmartz PDF Creator is the following:

- Converts any printable file to PDF.
- Batch conversion of multiple files is possible.
- Merges multiple files into single PDF.
- Adds watermarks to PDF from either predefined samples or your own watermarks.

- Secures your PDF files with password protection.

### User-friendly

Docsmartz Power Server is simple to install and deploy on client machines. Conversion process on client machines is identical to the powerful desktop applications of Docsmartz.

### Unlimited conversions

Docsmartz Power Server offers you countless number of conversions per machine.

### Economical

The Server packs of Docsmartz provide a very economical substitute to multiple purchases of single licenses by small & medium businesses and even large corporations.

### Non Dependency on any application

No dependency on server during PDF Creation and Conversion process on client machines. The Server controls only licensing, installation, upgrades, etc. of the two PDF conversion and creation software on client machines.
